Cake Cutting

The cutting of your Wedding Cake is a truly magical moment. We like to ensure all of our couples are aware of the 'cake cutting packages' available to you before you begin making arrangements with a cake maker.

Providing your own cake on the day is permitted. To ensure we keep all guests safe on the day of your Wedding, we do require a full list of cake ingredients. This is to ensure we do not serve the cake to anyone with specific allergies. Our team will work alongside your cake supplier to ensure they are fully aware of delivery options for your special day. In some of our venues, a fridge is available to use, however this cannot always be guaranteed. Our preference is that your cake supplier delivers the cake 30 minutes before your venue hire begins.
